## Feature Highlights

### Superior Laser Lighting

- High efficiency
- Rich and accurate color
- Long-lasting brightness consistency
- Up to 30,000 hours lifetime
- Mercury-free

### Lifelike Image

- 3,100 ANSI lumens
- 2,000,000:1 contrast ratio
- Rec. 709
- Football mode
- HDMI 3D

\*Content needs to be changed in advanced for 360 degree projection and portrait mode.

### Installation flexibility

- 360-degree projection
- Portrait mode\*
- Image shift
- Auto keystone correction
- AC Power On
- I/O power on

### User-friendly design

- IP6X
- 24/7 operation
- Wireless Projection (optional)
- 3W x 1 speakers
- DICOM Simulation

## Product View

### Superior Laser Lighting

Laser phosphor illumination uses only a blue laser diode, combining phosphor and filter wheel, to generate primary colors (RGB). These colors are then directed to DLP chip, go through lens and create images on screen. Unlike lamp-based projector that blocks most of the light and leave only RGB, laser creates only the exact color needed, thus using less power and is much brighter. 30% of power are saved compared to lamp-based projector to generate same level of . . . . .

### 24/7 operation

XL series supports 24 hours-7 days of continuous projection when prolonged periods of use is required. This is especially useful for public display or museum exhibition.

### 360-degree projection\*

PL projector can be rotated 360 degrees at any up-and-down angle for flexible installation. It enables special projection applied in exhibition, showroom or public spaces that requires projector not only supporting one projection angle.

- Project to the ceiling
- Project to the floor for interactive activity

\*Content needs to be changed in advanced for 360 degree projection and portrait mode.

### IP6X Rated

IP6X is one kind of Ingress Protection Rating published by the IEC (International Electro technical Commission). It is the highest degree of protection against solid foreign objects. This exceptional dust-resistance ability ensures PL deliver reliable performance even in challenging environment, for example, high ceiling that is difficult to obtain regular cleaning.

### About Acer

Founded in 1976, today Acer is one of the world's top ICT companies and has a presence in over 160 countries. As Acer looks into the future, it is focused on enabling a world where hardware, software and services will infuse with one another to open up new possibilities for consumers and businesses alike.
