resolution		720p HDReady
maintenance free		No filters to replace or screens to clean or panel alignment

Honestly Impressive

You, on the other hand, experience film. You critique cinema. You savor the sleeper hits. You secretly indulge in the occasional blockbuster. Fortunately, the InFocus X9 does equal justice to the art-house indie and the glossy action flick — even the odd B-movie (not that anyone has to know about it). You get to take in every obscure detail the way it was intended to be seen on the big screen. Larger than life. In electrifying color and clarity. If the X9 can do all this for your beloved films, just imagine what it could do for exhilarating sports and gaming action.

Learning curves are for school

Remember the first time you programmed a VCR? Drove a clutch? Used your microwave? Now forget all those mind-bending experiences. You probably can't imagine how easy it is to turn on and use the X9 projector. A few examples: Enjoy setup in a snap with a simple keypad and a new, full-featured remote control with patent-pending flashlight feature, direct source access, programmable presets and more. An icon-based menu allows you to quickly scroll and select your settings in your choice of 12

languages — without interrupting the show. Five user-selectable video sources enable impressive connectivity with a full range of devices, including VCRs, DVDs, component and RGB HDTV, EDTV and your game console of choice.

Just the Facts

1800 Lumens	Bright images in high ambient light environments
Contrast	2500:1 native
No Hassles	100% Maintenance-Free & Filter-Free Design
Installation	Table-top, Ceiling-mount and rear projection available within factory settings
BrilliantColor™ Technology	True to life color reproduction
DLP® Technology	Superior reliability and lower total cost of ownership
Warranty	Standard 2 year projector, 6 months lamp warranty

Specifications*

Native Aspect Ratio:	16:9
Supported Aspect Ratio:	4:3,5:4,16:10
Brightness: (Video Optimized Lumens)	1800 Lumens
Contrast Ratio:	2500:1
Display Technology:	DLP
Data Compatibility:	up to UXGA
Video Compatibility:	NTSC-M/NTSC-4.43/PAL-M/PAL-B, D, G, H, I/PAL-N/SECAM
