SONY

VPL-DX10

XGA projector with 2500 lumens

Compact portable projector

The VPL-DX10 is a compact and portable projector which is simple to operate. This projector weighs just 2.1kg and has a footprint smaller than an A4 sheet of paper. This means it can be easily and quickly carried between meetings, and is ideal for small- to medium-sized rooms including corporate conference rooms and school classrooms.

By combining an optical system that incorporates Sony's new and innovative BrightEra technology and a 3LCD projection system, the VPL-DX10 delivers high picture quality in XGA (1024×768) resolution and a high brightness of 2500 lumens. This allows professional presentations to be delivered in virtually any setting and under any lighting conditions.

Features include an easy-to-use control panel with all essential controls arranged together on the top of the unit, 'Off and Go' so there is no need to wait for fans to turn off before unplugging from mains power, and 'Quick Re-start' so that it is ready to present again within 5 seconds of an accidental power-down.

PrimeSupport

All Sony business projectors come supplied with a 3-year support pack which offers unique extra services and benefits.

3 years' cover

Free telephone helpdesk support in English, German, French, Italian and Spanish.

Collection and delivery anywhere in EU, Norway and Switzerland.

Features

Make an impression

Rely upon Sony technology for high resolution, vivid colour output to make the most out of your presentations.

Easy to use & reliable

The VPL-DX10 is simple and intuitive to use.

Move quickly

Weighing in at just 2.1kg and with a footprint smaller than an A4 sheet of paper, it is easy to carry between meetings. You can be ready to present seconds after switching on and be away as soon as your presentation is finished.

Benefits

3LCD BrightEra technology

This innovative inorganic panel technology was designed by Sony to deliver improved panel light resistance, higher brightness, higher resolution and increased panel reliability.

Colour Light Output - 2500 lumens

Colour Light Output is a metric that measures a projector's ability to deliver colour. Colour Light Output provides users with a simple, accurate and easy to understand way to evaluate projector Colour Performance to make better buying decisions.

SONY

Portable projector

Weighing in at just 2.1kg and with a footprint smaller than an A4 sheet of paper (295 \times 74 \times 204 mm), it is easy to carry between meeting rooms.

Easy-to-use Control Panel

The control panel is located on top of the unit, with all of the essential controls positioned in a line.

Off and Go

Unlike many other projectors, the fans within the VPL-DX10 continue to cool the unit after the power is unplugged. This means no waiting around after your presentation is finished.

Quick Re-start

The VPL-DX10 is ready to use again within just 5 seconds of a re-start.

Image Freeze

Allows you to freeze the displayed image while you make changes to content - without the audience knowing.

Tilt angle correction

Auto Vertical Keystone Adjustment detects the tilt angle of the unit and automatically corrects for image distortion.

Digital Zoom (x4)

Allows you to highlight a portion of the displayed image and enlarge it with a 4X zoom.

Ceiling Mountable

For permanent applications.
