Equipment Compatibility	PC, Macintosh, PDA, DVD player
Audio	1x2W
Aspect ratio	4:3 and 16:9
Colours Palette	16,7 million colours
Image size	0,7m to 7m
Throw distance	1,2m to 10m
Focus	Optical zoom 1,2x
Projection lens	20,2 ~ 24,2 mm
Keystone	+ /- 16 degrees
Horizontal scan rate	31 to 79 kHz
Vertical refreshing rate	50 to 85Hz
Advanced Functions	Freeze capability
	Economy mode
	Wi-Fi compatibility
Connection ports	Composite video, S-video,
	VGA In (x1)
	Audio input
Environment	85% maximum humidity
	Temp. Utilisation : 5°C to 35°C
	Temp. Stockage : -20°C to 60°C
Power supply	250 W (max.), < 5 W sleeping mode
	100-240V / 50/60Hz
Main machine interface	Multilingual menu configuration
	Remote control
Supplied with	Power cord
	VGA/VGA input cable
	Composite video cable
	Audio cable
	Lamp lifetime 2000h
	IR remote control
	Carry bag
	Lens protection cap
	User manual
Optional accessories	Replacement Lamp SLP 505
	Ceiling Kit
	Wi-Fi Kit
Warranty	Projector (without accessories), 3 years, pieces and manpower
	Lamp, 90 days
	Optional on site contract

AN ECONOMICAL PROJECTOR THAT SUITS ANY SITUATION:

With its 1.9 kg, the MDP 1600 is an easily transportable mobile tool. The MDP 1600 will fulfil your different needs and will suit any situation to show presentations indoors or outdoors.

Get a large image! The MDP 1600 is perfectly suitable for presentations in small rooms and has an excellent short focal length, doubled with a 1.2x optical zoom. You can install it close to the screen and still get a large and clear image. You can also use the ceiling kit to mount it on the ceiling or even create the perfect presentation using REAR projection technology.

You no longer need to have various models of projector! Indeed the economy mode will enable you to adapt the image brightness according to the environment light!

You can reduce its brightness when presenting in darker rooms to increase the lamp lifetime (up to 3000 hours) thus reducing your electricity consumption.

Thanks to the "auto power off" function, the MDP 1600 gets switched off after 30 minutes without signal, even if you forget to turn it off ; so that you can use the lamp to its optimal level.

INTUITIVE, IMMEDIATE AND SIMPLE TO USE:

Just plug and present, the MDP 1600 will manage everything else!

Thanks to the automatic source recognition, the MDP 1600 displays the image immediately.

The numerous connections offered by the MDP 1600 will enable you to be connected to any kind of equipment such as PC/MAC/PDA/DVD PLAYER.

The MDP 1600 also has the latest standard connections (VGA, Video composite, S-Video)!

A PROFESSIONAL PROJECTOR:

Make your presentations even more attractive! Thanks to the IR Remote control which looks like the MDP 1600 pad, use simply and intuitively your projector from far away. Beside that the MDP 1600 is also very quiet (30 dB economy mode), enabling more concentration from the audience.

CONTROL !

The freeze capability allows you to freeze a presentation in progress while opening another document without your audience noticing it.

The zoom allows you to create the perfect image thanks to its adjustments (size and picture flatness).

NO MORE ENDLESS PLUGGING !

The MDP 1600 WiFi kit facilitates multiple lecturer presentations avoiding endless plugging and unplugging. The wireless connection provides a flexible and fluid series of presentations.

VIDEO PROJECTOR INTEGRATION IN THE PROFESSIONAL ENVIRONMENT:

The optical protection and the ceiling kit ensure the best conditions for setting and safety.

The set up and the use of your SAGEM video projector in the professional environment are facilitated by a complete range of accessories (supplying cable, video, handbook, infra-red remote control). Ready to project at purchase, your equipment is delivered with a lamp (2000 hours).
