Portable projection with power and precision

Samsung M250 projector

Power, portability, and precision

With a brightness of 2,500 ANSI Lumens, a weight of 2.5 kg, and a lamp life of 5,000 hours, the super-stylish Samsung M250 redefines the art of portable projection. With 3LD technology for pure, precise color, enhanced multimedia playback functions, and a powerful 7W built-in speaker, the Samsung M250 puts power into your presentations.

PC-Free Microsoft Office support

The Samsung M250 is designed to enable high-impact presentations to be projected with speed and simplicity. The PC-Free Office Viewer gives automatic access to Microsoft Office applications via simple USB plug-and-play operation, enabling you to enjoy powerful and professional portable projection.

Easy remote management

On their own or as part of a network, Samsung M250 projectors can be controlled from a single server. Supporting remote management, diagnosis, and events scheduling, they allow you to create a professional projection network that is easy to install and easy to maintain.

Created for your convenience

At only 2.5 Kg, the ultra-portable Samsung M250 enables you to make professional presentations in any environment. Its pristine white body, compact size, and user-friendly design features make it ideal for mobile use. With easy lamp and filter replacement and one-touch foot release, it can be set-up and maintained in seconds.

5,000 hour lamp life

The Samsung M250 has an intelligent Economy mode that not only reduces power consumption and operating noise but also extends lamp life to an incredible 5,000 hours. Economy mode is specifically designed for use with screens that are 100 inches or less.
