SUPPLIED ACCESSORIES	
Power Cable	(3.0 m)
Computer Cable	(1.8 m)
Remote Control With Alkaline	AA type x 2
Password Protect Sticker	
Cable cover	
Lens release button lock screw	
EPSON Projector Software	

OPTIONAL ACCESSORIES	
ELPLP62	Spare Lamp (275W)
ELPLP63	Spare Lamp (330W)
ELPAF17	Air Filter
ELPLR03	Rear Projection Lens
ELPLS03	Standard Zoom Lens
ELPLM04	Middle Throw Zoom Lens
ELPLM05	Middle Throw Zoom Lens
ELPLL06	Long Throw Zoom Lens
ELPAP03	Wireless LAN adapter
ELPAP08	Quick Wireless Connection USB Key
ELPST16	Wireless Mouse Receiver
ELPKC28	Wired Remote Cable

WARRANTY SERVICE
3 Years Onsite Warranty
Service to be provided for local purchase only.

The warranty service can be extended by purchasing Epson Coverplus Extended Warranty. For more information, please contact Epson customer support.

Bold, Bright, Beautiful...3LCD Technology
3LCD technology achieves brighter, more natural images and smoother, sharper video playback. No color break-up makes images gentler on the eyes.

Bright and Beautiful

Multimedia Projector
EB-G5600 EB-G5650W EB-G5750WU EB-G5900 EB-G5950

Superb Projection Quality

1. WUXGA Resolution (Only WUXGA Model)

Epson's new product offers WUXGA (1920x1200 pixels) resolution for a high-resolution image display up to full HD video (1920x1080 pixels). Even on large screens, images maintain sharp, vivid detail, for a dynamic viewing experience.

2. High Contrast With Unbeatable Color Quality

C²Fine™

High contrast and flawless picture quality, thanks to Epson's proprietary C²Fine™ (Crystal Clear Fine) technology and inorganic LCD panels with Vertical Alignment (VA) technology. This technology is same as our home cinema projectors, with optical phase control technology to minimize polarized light leakage and increase contrast ratio.

Low Contrast Image

High Contrast Image

*EB-G5650W / G5950: 2000:1
*EB-G5750WU: 1500:1
*EB-G5600 / G5900: 1000:1

Stylish Design

Stylish And Compact Design

Centered Lens

The centered lens makes installation simple.

- Simply align the ceiling mount post, the center of the projector, and the center of the screen.
- There's no need to consider the lens offset from the projector center.

Pleasing, Professional Design

The slim white case looks perfectly at home in any meeting room or classroom.

Neat Cable Storage

Cables can be neatly tucked out of sight behind a rear terminal input cover that matches the case design.

3. Excellent Color Management

Epson Color Management System

The Epson color management system achieves perfect balance between brightness and color quality. Colors remain superb in all color modes, creating the same impression in the brightest mode as in all other modes. Natural colors (skin, vegetation) do not vary significantly between different color modes, as Epson engineers took great care to maintain the look of skin color across all modes. Reds and yellows are particularly vivid.

It does not happen the yellowish image when the color mode is change.

Skin color impression is same in all color modes.

*simulated Image

4. Image Customization Features

Six Axis Color Adjustment

Users can adjust the hue, saturation, and brightness for the exact color balance they prefer.

*Only available in "Customized" color mode.

3-2/2-2 Pull Down Selection (Only WUXGA Model)

1080p/24fps signals can be processed using 3-2 or 2-2 pull down, depending on taste.

3-2 pull down: Smoother image

2-2 pull down: Ideal for movies, with the same frame length as film.

*From 24 frames, 3-2 pull down creates 60 fps and 2-2 pull down creates 48 fps.

Advanced Sharpness

Users can adjust sharpness as precisely as they like. Formerly only a feature of high-end home cinema projectors, and available now for the first time in Epson business projectors.

DICOM SIM Mode

*simulated Image

This color mode produces images with clear shadows, ideal for projecting X-rays and other medical images.

If a brochure mentions DICOM mode, be sure to stress the following note.

*This projector is not a medical device and can not be used for actual medical diagnosis.

Superior Usability

1. Easy Installation

Horizontal / Vertical Lens Shift

Projection can easily be adjusted with both vertical and horizontal lens shift, giving users more flexibility in projector and screen placement.

*When maximum horizontal lens shift is used, available vertical lens shift is reduced.
*When maximum vertical lens shift is used, available horizontal lens shift is reduced.

5 Lens Options

(Projection range: with 100 inch/16:10 screen)

XGA model: 1.58-14.57m

WXGA model: 1.66-15.33m

WUXGA model: 1.63-15.03m

The 1.8x zoom of the standard lens allows a broad projection range, and there are optional lenses if a greater range is needed.

2. Easy Maintenance

Easy Accessories Replacement

Easy Lens Replacement

Bayonet mounts make lens replacement a cinch. An anti-theft locking mechanism is included.

Easy-to-replace Lamps

Lamps can be replaced quickly without tools and without having to uninstall the projector from the ceiling.

Easy-to-replace Filter

When the time comes to change the filter, it's as simple as pulling the filter out.

Advanced Monitoring & Control Function

- Easy MP monitor

- Message Broadcasting

(Only EB-G5750WU / EB-G5650W / EB-G5950)

- RoomView® compatibility

(Only EB-G5750WU / EB-G5650W / EB-G5950)

- PLink™ compatibility

Convenient functions

For More Effective Meetings

Split Screen

Split Screen allows inputs from two separate sources to be displayed side by side on the same screen. In a video conference, for example, images of presentation materials and remote participants can be shown simultaneously.

Multi PC Projection (Only EB-G5750WU / EB-G5650W / EB-G5950)

With Epson "EasyMP Multi PC Projection" freeware, the projectors can be used for interactive meetings. Up to 16 computers can connect to one projector on a network, with screens from any four computers being projected at a time.

<Compare Data On Up To Four Screens>

Compare and analyze data on simultaneously projected screens from multiple computers connected to the network.

<Drag And Drop To Change Presenters>

Adding or removing presenters' screens is done by simply dragging and dropping user icons. This allows meeting participants to share their opinions more quickly and effectively.
