Enjoy DVDs, TV, video games or sports at home and in style with the High Definition ready Epson EMP-TW600. Your blank white wall can become an impressive 60" screen in a matter of seconds when you plug in and play this stylish projector from Epson.

The future looks bright

Embedded with advanced technology, Epson home cinema is helping to define the future of viewing. High Definition ready, it's all set to handle images from digital TV, giving you outstanding clarity. With the amazing brightness of 1600 lumens and contrast ratio of 5000:1, you can watch programmes even in broad daylight.

Big screen, small space

You don't need a large room to project a big screen. You can create an amazing 60" image at 1.5 metres from the screen.

Bright, natural images

The latest 3LCD Imaging technology gives you brighter images, more accurate colour reproduction and finer grey scaling. All of which makes it easy on the eye. The unique Epson Cinema Filter ensures all the colours of the natural world project in their full glory.

Key features

- Native 16:9 resolution for a true cinema experience (720p)
- Excellent definition with 5000:1 best-in-class contrast
- Future proof and High Definition ready
- Daylight viewing with 1600 ANSI lumens
- 7 colour modes adjust fast to changes in lighting
- 10-bit processing for accurate colour reproduction
- Back-lit remote control for ease of use in the dark

Make yourself at home

The stylish Epson EMP-TW600 is set to revolutionise your home entertainment. Why save the big screen for movies when you can just as easily watch TV, play video games and more. In fact, with multi-media capabilities, you can plug in all your existing equipment to enjoy larger than life images direct from:

- TV
- DVD
- Digital camera
- Digital set-top box
- Video games
- PC

Project from almost any angle

Thanks to Epson technology you can position the projector off-centre or on the ceiling and still get a sharp picture with no distortion. That way everyone can enjoy world-class action from the front row. Whether you mount your projector on a shelf or the ceiling, or put it on the coffee table, the easy-to-use Horizontal and Vertical lens shift will find and display your optimum picture in seconds.
