

EB-G6270W

DATASHEET

The EB-G6270W is a professional installation projector ideal for corporate environments, education applications, rental markets and digital signage. Important presentations and sales campaigns are delivered with rich, vivid colours - even in daylight, thanks to Epson's 3LCD technology and equally high White and Colour Light Output. The projector can even be placed in difficult positions thanks to a number of innovative installation features.

Ensure superb quality and the best possible delivery of presentations with the EB-G6270W. This 6,500-lumen projector includes Epson's 3LCD technology and high brightness to display images with more accurate colours and clearer detail. A new enhanced standard lens helps reduce flare and improve focus.

Set-up and installation is simple and straightforward. A wide lens shift allows easy placement of the projector, even in difficult positions, without distorting or blurring the image. In addition, a powerful zoom lens, as well as manual vertical keystone correction and centred lens, make it even easier to set-up in various positions. The projector can also be rotated vertically by 360 degrees allowing images to be projected directly onto the ceiling and the floor¹.
