

EH-TW5350

DATASHEET

Offering bright, colourful and high contrast Full HD images and advanced smart controls, this 3D-capable projector is all about affordable home cinema around the house. Vertical/horizontal keystone correction make it easy to set-up and position, while the built-in Miracast means this versatile projector, with a 35,000:1 contrast ratio, can be controlled using an Android smartphone app.

Sharp, smooth images

Using Epson's 3LCD technology for high brightness and vivid colour, this Full HD projector features high White and Colour Light Output of 2,200 lumens and 35,000:1 dynamic contrast ratio. Together this technology ensures bright, vivid colours and deep blacks. Frame interpolation and Detail Enhancement provide sharper and smoother motion pictures and great detail, for greater clarity, and the EH-TW5350 can also convert standard 2D video into 3D.

Enjoy the big-screen experience with easy set-up

Aimed at people who want a truly big-screen experience at home to watch films, TV and sports, this projector delivers stunning Full HD entertainment at up to 332 inches. Positioning your projector to get a perfectly-aligned image is easy thanks to keystone correction.

Smart control

Epson's iProjection Smart remote app lets you control the EH-TW5350 from any smart device, and change all of its settings. Those with Android phones or tablets can also stream videos and more to the EH-TW5350 using the Miracast feature.

Built-in speaker

Though it's primarily designed to be used with a separate sound system, an integrated 5W speaker on the EH-TW5350 makes initial set-up of the projector simple.

KEY FEATURES

- **Affordable, high-performance home cinema**
Displays both 2D & 3D video
- **Smooth, fast-moving action**
