

# Epson EB-G5950

## DATASHEET

Designed to meet the needs of large venues, this wireless projector delivers high image quality and functionality alongside a simple set-up.

An ideal choice for lecture theatres, auditoriums and concert halls, this projector has an equally high white and Colour Light Output (CLO). With Epson's 3LCD technology, presentations have vivid yet natural colours, even when projecting in a well-lit environment.

This model comes with a standard lens.

First-class picture quality: Audiences will enjoy perfect images, natural colours and brightness of 5,200 lumens white and Colour Light Output, thanks to Epson's 3LCD technology. Deeper blacks are created with the high contrast ratio of 2000:1.

Wireless connectivity: Wireless connection (802.11 a/b/g).

EasyMP Network & Control: Monitor the status of your projector, email the administrator and set up alerts, so the projector emails the administrator in case of any issues. You can also broadcast a message to the network with the included EasyMP Network Projection software.

Split screen: Compare and contrast data such as graphics or worksheets.

Straightforward set-up: Keep installation simple with the centrally positioned lens, while placement options are broadened with the vertical and horizontal lens shift. The bayonet mount and wide 1.8x zoom ratio with the standard lens make positioning the projector a hassle-free process.

Reliable and low maintenance: Product durability is assured while total cost of ownership is kept to a minimum with the C<sup>2</sup>Fine Inorganic LCD panel and long-lasting lamp.
