Key Features

- Full 1080p (1920x1080) resolution
- 3,200 ANSI lumens
- 10,000:1 high contrast ratio
- Up to 6500 hours lamp life
- Full 3D compatibility

Remarkable contrast and vibrant true-to-life colors

DLP technology produces images with remarkable native contrast, using their vast projector design and manufacturing experience, BenQ Engineers deliver DLP Projectors with exclusive features such as SmartEco technology that reproduce images with sharp, crystal clear, easy to read text with rich shadow details and vibrant, true-to-life colors.

Colorific™ technology delivers lifelike color, year after year

BenQ uses Colorific technology to optimize images for specific color balance effects for diverse applications such as presentations, movies and spreadsheets and photographs. Every BenQ Colorific projector generates more than one billion colors by combining up to seven different colors to create vibrant, true to life images. You'll also experience dramatic contrasts for remarkable clarity, higher impact, and greater legibility. BenQ's Colorific projectors are dependable year after year. You can rely on the colors to remain the same from day one to a decade later--without the risk of fading, ghosted images, or yellowing.

- Accurate. Over 1 billion colors - compared to 16.7 million from many LCD projectors
- Crisp. Bright, high contrast picture - 3x more contrast than similar top-selling LCD models
- Long-Lasting. Consistent quality - image is the same now and years from now
