

EB-4770W

DATASHEET

This 5,000-lumen installation projector has a WXGA screen resolution and produces bright, clear images

Ensure your important presentations look their best with bright, vivid and realistic colours. Utilising Epson's 3LCD projector technology and an equally high White and Colour Light Output, this WXGA projector can produce bright, high-definition images with superb colours even in a variety of ambient light levels.

High-quality content

Showcase your important presentations in the best possible way with the EB-4770W. Thanks to Epson's 3LCD technology, you can be sure that your projected images will feature accurate colours and clear detail. Your images will continue to look their best even in brightly-lit rooms thanks to high brightness and an equally high White and Colour Light Output.

Flexible connectivity

Bring your presentations to life with a range of high-definition content, which can be projected from a variety of devices connected via the HDMI and DisplayPort inputs. Content from these devices can also be displayed alongside content from another source, such as a separate laptop or Epson USB Visualiser, using the side-by-side split screen function.

Easy set-up and maintenance

Setting up the projector is quick and easy thanks to a variety of user-friendly installation features, meaning you can get started quickly. You can place the projector in a number of positions without fear of blurring or distorting the image thanks to its x1.8 wide zoom ratio, keystone correction and arc and point correction. We have also made it easy for you to keep your projections as bright and clear as possible. Both the lamp and filter are easy to replace, meaning maintenance is quick and straightforward
