

EB-580S

Liven up the classroom with our brightest ultra-short-throw, 3LCD projector.

This 3,200 lumens ultra-short-throw projector, from the world's leading projector manufacturer¹, is ideal for delivering high-quality classroom presentations with fewer shadows. The EB-580S projects a large image from a very short distance thanks to its ultra-short-throw capabilities.

Quality image

Epson's 3LCD technology ensures high-quality images with equally high White and Colour Light Output, even in daylight, and three times brighter colours than leading competitive projectors². HDMI input means that students benefit from sharp, clear projected images.

Reliable

Project for longer with improved reliability and a longer lamp life of up to 6,000 hours.

More control and collaboration

The multi-PC projection software allows content to be shared simultaneously, with a moderator function to ensure the teacher remains in control.

Save time

Simply plug in and turn on – there's no warm-up time.

Wireless projector

The wireless capability allows you to share content easily from a range of smart devices using the iProjection App³.

Compatible solution

It is designed to work with SMART Board M600 and 800 interactive whiteboards⁴ supporting the SMART Extended Control Panel (ECP) - letting you control the power, volume and input options. Collaboration is seamless with this integrated solution. When paired with a SMART Board interactive whiteboard, this system includes SMART Notebook collaborative learning software, allowing users to easily interact in real-time with on-screen content. Educators can enliven the classroom with thousands of pieces of pre-created SMART Notebook content to engage and inspire students.
