The Sagem MDP 2500-X offers an impeccable brightness with its 2500 ANSI Lumens and makes your presentations sharp even in a bright room. Thus, you will be able to carry out your presentations in every type of meeting room. Benefit from its high XGA resolution including more pixels (1024 x 768) for a perfect image restitution.

SYNONYM OF MOBILITY AND FLEXIBILITY

Have just only one model for all types of projection rooms with the Sagem MDP 2500-X! Its power and brightness are concentrated in a small format and weight ideal to take with you everywhere. According to the room's illumination: adapt and control the brightness to your environment. To extend the lamp life and reduce your electric consumption, benefit from its economic mode!

SIMPLE FOR AN INTUITIVE AND AN IMMEDIATE USE!

Simplify your projector's use! Once your Sagem MDP 2500-X is plugged, the image is automatically projected thanks to the source's recognition. Remove it from its carrying bag, it's ready to use! Very flexible, the MDP 2500-X proposes multiple image resolutions (XGA, SVGA, SXGA) and high connection possibilities (VGA, Video composite, S-Video). This technological concentrate will enable you to connect it to all types of equipment (PC, Macintosh, DVD player...). Intelligent thanks to its integrated counter, it informs you about the lamp replacement and always makes you stay in optimum projection conditions.

A PROFESSIONAL PROJECTOR

For more comfort, your MDP 2500-X is equipped with its high-tech remote control which looks very ergonomic and reminds the projector's buttons. Thanks to its advanced functions like the image freeze function, fix your current presentation and open another document at the same time. Your audience will not realize anything! Its zoom will let you refine the image precision thanks to its advanced adjustments (size and sharpness).

FLUIDITY THANKS TO THE WI-FI!

Benefit from the Wi-Fi option to facilitate continuity of the successive presentations by different speakers. The fluidity of your presentations will be even more guaranteed.

A PACKAGE ADAPTED TO YOUR PROFESSIONAL ENVIRONMENT!

Sagem assures you the best conditions for maintaining your projector in perfect working conditions: the Sagem MDP 2500-X is supplied with a carrying bag. For a stationary use, Sagem also designed a ceiling mounting kit (optional) which allows a fully safe use of your projector. Discover also a complete serie of accessories in order to integrate your front projector perfectly in your working environment: power cord, VGA, S-Video and video composite cables, user's manual, and laser pointer remote control (optional).
