

INFOCUS LP840/LP850/LP860 INSTALLATION & INTEGRATION PROJECTORS

UNIQUE, HIGH-PERFORMANCE INSTALLATION PROJECTORS

Experience the brilliant power of the InFocus LP840, LP850 and LP860 family of projectors designed to integrate into any room—across your entire enterprise—with powerful options, presentation flexibility, innovative ease-of-use and a price you can't resist. Unsurpassed flexibility and a revolutionary feature package means perfect projection in any environment—when it counts the most.

EASE, INCORPORATED

Imagine. A projector that makes your work easier. InFocus ProjectAbility™ makes InFocus projectors so intuitive, users are up and running all by themselves in no time.

ProjectorNet™

InFocus®

THE POWER...

— ...OF PERFECT PROJECTION

Illuminate large training rooms, conference centers, classrooms, and houses of worship with stellar brightness and image quality. Four optional user-replaceable bayonet lenses can be changed without hassle in just three easy steps. Get native XGA resolution at 3500 lumens (LP840) or 4500 lumens (LP850), or precise SXGA+ resolution at 3500 lumens (LP860), for images that are powerful and captivating.

— ...TO CONNECT

Experience seamless compatibility with connectivity that supports three separate PC and three separate video sources. Control your projector via RS-232 or TCP/IP interfaces. Connect analog and digital sources with support for HDTV and computer sources up to UXGA resolution. BNC connectors make for secure, professional installations.

— ...TO UPGRADE

The LP840, LP850 and LP860 are solutions-enabled—offering seamless integration with network and wireless applications so you can upgrade with ease. Add them to your network right out of the box with ProjectorNet™ by InFocus® and manage all your projector assets from a single PC. These projectors are also compatible with the InFocus LiteShow® wireless solution, the first cable-free digital projection solution of its kind. Just pure performance and wireless collaboration.

THE POWER OF TOTAL CONFIDENCE

With an array of options and control features, the LP840, LP850 and LP860 family of projectors give you exactly what you need.

Four optional user-replaceable bayonet lenses - just push, twist, and replace.

Seamless integration with network and wireless applications.

Simple maintenance.

Illuminate and captivate your audience.

— UNIQUE OPTIONS

Four optional user-replaceable bayonet lenses offer versatility in most any venue and can be changed in just three easy steps. Just push, twist, and replace. It's that easy.

The lamp can be replaced even while the unit is mounted allowing for simple maintenance. Power zoom, focus and lens shift, plus horizontal and vertical keystone correction provide the highest level of professional installation performance and control. Plus, compatibility with multiple video and data sources ensures smooth set up and trouble-free presentations for users, resulting in a minimum of service calls for IT and other support staff.

— EASE WITHOUT SACRIFICE

Wireless and network capabilities offer ultimate control options. Combining features and design that benefit the installer, IT manager, and presenter, the LP840, LP850 and LP860 are solid choices that you can stake your reputation on.

InFocus ProjectorNet™ is a client/server based networking solution designed to allow IT and facilities personnel to manage multiple projectors from a single PC. ProjectorNet gives corporations, universities and other organizations the power to manage projectors just as they would other shared computing and communication assets such as PCs and printers.

InFocus LiteShow® delivers high-resolution, true-color clarity with fast image updates and smooth, jitter-free images. It's built on industry standard Wi-Fi (802.11b) technology and is compatible with both PC and Mac operating systems. LiteShow is simple to use, requiring zero network configuration and no cumbersome system set-up. No more plugging and unplugging between presenters, delivering unprecedented flexibility for wireless collaboration.

— INNOVATION FOR PERFORMANCE

User-focused innovations—based on years of research—enable intuitive use. Features designed for both IT and end-users allow for trouble-free projector management. ProjectAbility™, an InFocus Corporation product design philosophy, eliminates the typical projector learning curve. Color-coded I/O connectors let users connect in seconds. The keypad allows the most common functions to be accessed with just one touch, while the intuitive menu system lets users simply scroll-and-select. This approach to design for ease without sacrificing function not only reduces support calls, but results in much less presentation “down time.”
