

－Ultra－lightweight portable projection screen in wide screen format．
－The viewing height can be infinitely adjusted with ease using the telescopic rod to the rear of the screen．
－Supplied with an extra black lower border as standard for adjusting to the ideal viewing height．
－The CinemaLite has two feet which are folded out when setting up to give it stability．
－The case is made of aluminium with a subtle titanium－coloured finish．

## ロロールメルー

－Portable projection screen，unique in design，in a lightweight aluminium case．
－The four legs，which are integrated into the case，are easily folded in and out．Set it up，pull it out and the screen is ready for use．
－The smallest model（ $94 \times 107 \mathrm{~cm}, 50$＂diagonal）does not have legs and is used for table－top projection．
－Height adjustment of the projection screen surface is flexible due to the patented tensioning arm with gas springs（registration 1015567）．
－Supplied with an extra black lower border as standard for adjusting to the ideal viewing height．
－The case $(85 \times 105 \mathrm{~mm})$ is made of anodised aluminium．
