

**NEW!**

- Most compact Home Cinema projection screen
- Extra high black border for adjustment to ideal viewing height
- Manual projection screen with smooth spring mechanism

# SlimCinema: most compact

manual Home Cinema projection screen

Projecta has added a new Home Cinema projection screen to its Home Cinema screen line. The most compact manual screen available on the market. Special manual operation thanks to the

spring mechanism. The screen is supplied with an extra high black border on the top for optimal viewing height.

**PROJECTA**

**NOW ALSO AVAILABLE IN BLACK!**

- Expansion of colours available for Home Cinema projection screens with addition of black case
- Now even easier to integrate into your living room or Home Cinema viewing area

# Home Cinema range

Now also available in black!

In addition to the existing Home Cinema products with the white case, Projecta now also offers products with a black case. This expansion in the range makes it even easier to integrate your projection screen into your interior or to install it in your Home Cinema viewing area.

Your livingroom can literally be converted into a sports stadium, movie theatre or concert hall in no time. With the renewed and comprehensive Projecta Home Cinema range, you can now enjoy a "night out" in your own comfortable home environment.

# Home Cinema range, now also available in black!

## SlimCinema

Most compact manual projection screen with spring mechanism. Supplied with an extra high black border on the top for the optimal viewing height, well-suited for Home Cinema.

- Black border increases the perceived clarity of the projected image.
